

The tricksters

I know that they have tricked many people by telling them that the MRNA technology/ vaccine will help them become stronger, healthier, safer, etc.... Which of course the people didn't investigate. Why the people didn't investigate? Why do the people believe everything they hear from the media, governments and the biggest NGOs on the planet? Via the money interests of some of the most powerful money interested people on the planet (money, power, control=corruption???) is beyond me. Those were the people that wanted to get voluntary vaccinated... Too gullible??? NAIVE??? The people are too naive. Too trustworthy...

On the other hand, I know so many people that didn't believe the official story (propaganda). But because of fear, threats, black mail, and the unconstitutional laws/illegal laws and forced "work and health normative" in order to not lose their jobs (threat of hunger, etc.) and many other simple/ basic normal rights, like public transport, stores, etc... Including the absurd/ undemocratic (no democracy, no true law, only black mail and force) idea that if a person doesn't want to submit to the tyrannical demands of submitting involuntarily to the "voluntary vaccine" they are "bad people". Let me tell you something. It is OK to be told that you are a bad person if you stand up for your rights. So, the poor (strong minded/weak minded) good people were not able to resist when they were called "bad people". They were not able to resist in front of such a powerful public campaign... so much was the psychological pressure to inject themselves, that they even sign the waiver... under the duress and pretension that the vaccine is done "voluntarily" and if it has negative effects, no medical, no government, no big pharma company/ institution/ government is responsible... only the "patient" that has been already forced to sign a waiver of all of his/her rights. Shameful...

I have seen it with my own eyes... so nobody can tell me that it's not true. It is true. History will remember...

Last are those (like me and my wife) and 150 millions of other people (just in the European Union alone) that do not want to get vaccinated/ injected. Most of those people have become like second class citizens and are already discriminated and suffering because they have already lost their jobs and some of their basic human rights... This is the real and most terrible truth. Just in Germany alone there are about 30 million that do not want to get vaccinated. What is going to happen in the near future? If those 30 million fight back??? Alo, Alo... I think people should wake up quickly... Is this situation OK with you? What do you think? Please let me know...

If you will only open your eyes, ears and heart, in order to see, hear and understand from their own public statements (the big public figures), of their own intentions, then you will begin to understand the terrible truth... That to them we are not people. I know it's painful to accept, but watch, listen, read, study and accept that to "them" we are like chattel (like cows, pigs, sheep) ignorant and stupid, or pest-like, like "locust", or cockroaches. The first group must be controlled... The second eliminated... The implications are very serious and tragic... the crimpling/crippling effects and the deaths have already begun in the human population in the most vaccinated countries of the world. More than this "the vaccinated" are now subscribed to the second/ third/ fourth and many more boosters in order to survive... in order to repair them... in order to create a "synthetic immune system"... life-long subscription, every six months a "booster" is the official story now. A synthetic immune system costs money...it is not free. So, in the near future "they" desire that the people must pay money to have/to buy a "synthetic immune system" in order to stay alive. What was wrong with the natural immune system from nature/God??? It has a major flaw...it is very bad for "them"... It is free. No money and control for them...

What do you think about this??? Is this OK with you?

Please don't get offended, I am only stating what is becoming obvious in time... in the last two years. I believe we will see even better the truth as more time passes. Wait and see... I also believe that the vaccinated and those not vaccinated should unite and demand an investigation, justice and democracy. I believe we should, all of us, together, support the basic human rights by our constitution and so on. Together. United is the key word here, vaccinated and not vaccinated together, united and not divided.

This brings me to the most important aspect of all of this terrible situation... Now (beginning a few months ago) they have begun to insist that "they want" to vaccinate the children... our children... This must never happen... We must stop the system. We must stop them.

We don't want what they want. We must not allow MRNA technology to be injected in our children. We know now for a fact that MRNA changes/ transforms/ modifies the human cells and minimizes the natural immune system and creates a bunch of problems in the human body. We must not allow them to make any vaccine from now on mandatory. If necessary, the whole political class must go. Maybe to prison... for corruption and maybe even for crimes against humanity... What do you think?

Because of “corona politics” the economy is also negatively affected billions of people worldwide...Economically it is a disaster... To human rights it is also a disaster... normally all restrictions must stop, and all human life must return to normal life, like in some other countries... If somebody should stop, it is the “hysterical people” who shall stop... This nightmare must be stopped. Everything that happen must be investigated and the normal law restored. Look at what is happening in Australia... Terror and tyranny... search a little deeper... see and listen to their plans... it's all visible now... for those that dare to see the truth...control, greed, tyranny...darkness.

The law shall be above everyone... even above the rich... even above the politicians... even above the corporations...

The middle-class businesses should be protected... not under attack... worker rights, human rights, to a normal life should be protected above and beyond the interest of a few... Normal people rights should be protected. Not aberrant people's rights, the errors should be minimized, not promoted...

Do you see? Do you hear? Do you understand the situation?

If you do understand the situation and want to help in this mission to spread the word... I need to ask you directly for your help. I will be blunt. I have used most of my time, in the last couple (about two) years and my small financial resources to actively reach people and to spread the truth about this situation. But as you know everything cost money, no matter how much time and dedication I invest in this mission it seems that if I will have more money/ a bigger budget I will be able to do more...I have time and dedication... I need for you, if you can(?), and want(?), to give me a donation for this cause. If you believe that we the people should fight for democracy and choice...

I know that they spend lots of money to lie/propaganda... But I found out in the last couple of years that it costs money, time and dedication to fight the lies and spread the truth. I need help!... I cannot fight alone the corrupt system... But I will... I will not stop. Don't expect that the world will miraculously become a better place without your help, somewhere, somehow... Do something... I hope you will help where ever you are... If more of us become aware and participate in helping/ fighting/ resisting, I believe in my heart that we will probably succeed...change their minds/ plans and come back to a normal life. To a relative or more democratic life. A friendly piece of advice... Don't be a coward.

Until next time with respect, Robert Freemann.
