

The tragic death of a German family of five under “corona politics”

(Discovered on the 4th of Dec. 2021 in Konigs Wusterhausen, Germany.)

The tragic death of a German family of five by suicide under the fear/terror of “corona politics” with its draconian laws and politics of the new world order dictatorship/tyranny.

The husband/father and his wife/mother of three girls/children (4yrs, 8yrs and 10yrs of age) were both teachers/professionals, educated persons that were contributing members of good standing of the modern German society with good reputation (being teachers) and no legal, penal or psychological antecedents. The real tragedy is that this family of normal upstanding citizens (like many other normal people, families) found themselves under the threat- the blackmail of the German politicians/ Government, that if a person does not submit and vaccinate himself or herself “voluntarily” with “the voluntary mRNA vaccine” (genetical modifications) he or she will lose his/her job, their very livelihood and many other civil rights.

Millions of people have already lost their jobs and civil rights. So, the story goes that under this incredible threat and pressure between starving/eviction/death or the normal desire to work, pay the rent, feed your children, survive, to stay alive... they made /make (the husband for the wife) a fake “vaccine certificate” in order not to steal money from somebody but only to work. What a tragedy, what a terrible choice... either you allow us/the Government to inject you and modify your cells/genes (like farm pigs/cows) or we take your rights to work, transport, to live your life. If you don't vaccinate, we take over your life and your civil rights. Who elected those people? Who are those people? They are German, European, democratic people? Do they have normal productive values? Are they human? I am very angry right now. Are you angry?

I will continue the story. The boss of the wife/teacher discovered that the vaccine certificate is fake... the mother/teacher was sent home... she told her husband what happened... talking to each other they knew that in Germany with its many laws and powerful bureaucracy they will probably face prison, fines and possibly the forced vaccination and estrangement of their three little daughters. Such a terrible story. They knew, being educated, “the system” very well, so they decided they would rather kill themselves and their daughters together than become prisoners of this “new German Government” and live hell on earth. You see, they didn't want to see and watch their own family being treated like animals. They didn't want to see their family being divided and humiliated by the German state, by the new social science experiments. You shall be aware that by being teachers, part of the system (just like police, just like firefighters, just like medical staff, just like most bureaucrats) they knew about the system including the Jugendamt and many other things. They were also, I believe, very well informed on the real scope of the “corona virus campaign/war” and the “New Reset” of the New World Order. I am sure that the mass media is going to try to discredit them and after words they will bury them in mountains of negative information (character assassination, discreditation) ... they will try to

make us forget them... they will say that they're crazy and bad people. But they were teachers in good standing order until the last moment, no character problems on them.

I will never forget this beautiful family. I will not forget those martyrs that die because of the war on humanity. They are waging a war on us... to change our genes... to dehumanize us... Just like the Jewish people, don't forget Massada, where the Jewish people... the Jewish patriots chose after fighting and losing in the face of the romans army to better kill themselves and their children... entire families... rather than fall prisoners to the roman army. True martyrs. Read the many variants of the story... because it is controversial. So, just like the Jewish people don't forget Massada and their heroes, we shall not forget this family and countless martyrs around the world that spoke against "corona vested/invested interests" of the Big Pharma, the billionaires and their politicians.

We shall not forget the brave doctors, scientists, nurses that have lost their jobs or been punished for speaking the truth. We shall not forget all those from the normal working population that have already lost their jobs for refusing the MRNA vaccine.

We shall not forget all those that have spoken the truth for democracy, for Christian believes, for human rights against the "corona oppression" and the "New Reset" that a bunch of ideologs and politicians are promoting nowadays in these times of tyranny.

Thousand/millions have spoken all around the world. Thousand have been oppressed, suppressed, demoted, discredited, attacked, persecuted, threatened, punished and censored.

The story is the same everywhere, if you do not want to get vaccinated, if you speak the truth as a science specialist/doctor against the MRNA vaccine and millions/billions of victims. If you speak the truth for choice, for democratic values, for religious believes... for human values. For whatever reason that you speak against their goals of control and tyranny of the "New Reset, New Normal" (abnormal reality that they want to create), New World Order. They seem to have a plan to combat you, to force you, to force us to the prison/slaughter house/ hell on earth...

Listen to this, I will show you some of their logistics. First of all, they have tens/ hundreds/ thousands of NGO's that work for them in each country of the world, but with predilection in Europe, America, Russia, China, Japan, the English/Spanish speaking countries and in Israel. Secondly, they have most of the mass media and the internet. So, if one specialist or person, speaks the truth, 100 paid science people or opinion forming people, contradict, suppress, oppress, repress and discredit that ONE (1) person that spoke the truth or revealed something.

This is the most powerful weapon in the world, on the war on truth and ideas. With so much power of manipulation on people minds/ideas... I am not surprised, that most people don't even know what time it is. What we must be aware of, is that all those NGO's shapeshifters, opinion shifters, that shift/distort/ educate/reeducate us (including our politicians, law makers, judges,

policemen, professors, doctors, etc.) from the invisible realm of ideology to the visible material world cost money. Money on a scale that you cannot even begin to imagine.

Let me get back to our story. Because we speak of martyrs and martyrdom for human rights and truth, we shall never forget Joshua of Nazaret (Jesus Christ) and his sacrifice when he spoke for human beings/rights and God's reality against the king, the priest's caste and against the Empire. Generally speaking, of the human corruption/decadence.

We shall also not forget the early Christians that died in martyrdom for their beliefs and for human rights, being faced with so much indignity and tyranny. With all of those ideas/thoughts in my heart and mind, I am telling you that I will not forget this one beautiful German family of five (father, mother, and three little daughters, of four, eight, and ten years) that died under the corona persecution. I will remember them...

Will you remember them???
