

If we want to begin to solve the problems that are surrounding us...we must try to fulfill (strategy, tactics and logistics) in a practical way.

Our objectives are: (objectives can be adapted to any Christian country by changing a few words)

1) Create bridges/networks, based on Christian values and European/Democratic values that promotes/protects the individual, family and community/culture,etc.

2) Create the strategic/logistic, organizational/educational support to inject a real democratic vaccine in our society in order that our voices/actions will be heard by the political system.

3) Reach out from the local level in and through communication/alliances most of those that share our Christian European values throughout Germany & Christian Lands everywhere,including America and Russia in spiritual communion/interests.

4) Reach out to all Christian European countries and all other Christian countries of the world. Reach even those across the Oceans and so on... Move the Earth...

5) Create everything necessary in order to have a powerful lobby for our mutual Democratic Interests (of the people for the people) from land/country/E.U. Parliament, (U.N.???), and our allies (the people) across the Oceans, The World.

6) If you have ideas/plans/actions in your mind that help, or personal skills, I am looking forward to hear from you, to see you in friendship and in good will.

7) Do all of this in a way that is spiritual...that can not be infiltrated or corrupted at an organizational/institutional level. We must do this by almost "leaderless" leadership. The opposite of monopolistic/centralized federal power. Local (community) power everywhere. With God/Nature in Nature/God.

8) Infinity and infinite possibilities. If you are already trained and prepared to be a protector, a leader ...and you already see the truth ...if you feel the higher call of duty...if you are ready to serve...if you can read what I cannot write in words...if you have risen from the abyss...if you have survived hell on Earth, and seen heaven on Earth...I say to you. Do what must be done and if you can reach out to me, do it. You are not alone...We need skills and resources...

9) I am in Europe right now (Germany, Holland, Belgium, etc.) ... so, if you are interested in pro-human rights projects after you read some of my ideas (in order to understand my

position) and/or you have some business interest here in Europe or anywhere around the world... if I can help you... I will. I speak English. Just tell me about it.

10) If you are a speaker of Latin languages (French, Spanish, Romanian, Portuguese, etc.) or Germanic languages, or Slavic languages (Polish, Ukrainian, Russian, etc.) or Magyar, Armenian, etc. (other European languages) and you're interested to help me translate my writings, my work, in my mission, from English to your own language, please contact me. I am for everything that is pro-light versus darkness, pro-truth, pro-life, pro-democracy, pro-being and becoming a true, genuine human being with private religious believes in the true sense of the word... With no predations and no parasitism...I am, for a higher human being...

Until next time.

With respect, Robert Freemann.
