

## Corona Politics

Treatment or Crime? We shall unite and protect... demand protection for the brave men and women that have spoken the truth (against the Political Agenda of Corona Politics) losing their jobs/being punished. A few examples... from many... Never forget them... Remember them... (2021 A.D.)

1) Michael Yeadon, ex vice-president and chief scientist researcher at Pfizer (Germany). He no longer occupies the position or work for Pfizer. He spoke the truth and now all mass media discredits him...

2) Dr. Robert W. Malone the original inventor of the mRNA vaccine (and DNA vaccine) has been expressing serious doubts (negative opinions) about the whole campaign of the mRNA vaccine. For this he came under the discrediting campaign of the mass media. Those are only a few examples of mass media total character assassination.

3) Thomas Mertens, chef Mertens at the Standige Impfkommision (STIKO) knowing much more than he can speak (about corona vaccines) stated in a Bild interview, in a polite reserved way (politically correct?) as an answer to a direct question that he is not for the vaccination of his children and grandchildren... Because he spoke the truth... a mass-media campaign was started against him and probably a lot of political pressure was put on him... because after two or three weeks he recanted his statements. He chose in the end to keep his job and social position. I believe after watching his interviews that he is a good man forced to say and support the official story of "Corona Politics". He still works at STIKO. So, the conclusion is this; if they speak the truth, they are thrown out and discredited. If they recant and begin to support the vaccination campaign, they get to keep their job and social position.

- 1) They know that they are lying.
- 2) We know they are lying.
- 3) They know that we know that they are lying.
- 4) What do you think? What do you want to do?
- 5) If you want to do something, contact me.

We must create networks. We must build Bridges. Come out of loneliness...

It seems that they have some kind of terror teams in civilian's clothes that visits "the target" on the street level. It also seems that they have thousands of internet/computer agents that wage a terror campaign and character assassination of those that have (medical evidence) and disclose the truth. "Translation of an international press article from English to German in October 2021. (The threats, abuses and loss of jobs,

funds seem to follow only the scientists, doctors, researchers, specialists who speak against the vaccine and for normal drugs, treatments). Remember this.

Of 321 scientists surveyed by a magazine, 15% said they had received death threats, and 22% had been threatened with physical or sexual violence for speaking publicly about the pandemic. Two-thirds (aprx.60% plus) said they had had negative experiences after appearing in the media. Scientists revealed how they had been left desperate and frightened, and in some cases stopped sharing their views publicly after experiencing harassment and intimidation. The most common triggers for abuse were opinions about Covid vaccination, face masks, the origins of the Covid virus, and the effectiveness of drugs to treat the disease. These included ivermectin, an antiparasite drug that has been endorsed by some (many Doctors) of those who are against the Covid vaccine. Dr Andrew Hill, a pharmacologist at the University of Liverpool, received images of hanged people and coffins after he and colleagues published a meta-analysis in July suggesting that ivermectin could help treat Covid, but then he withdrew the paper after having doubts (because of fear?) about the data underlying one of the studies they analyzed. The scientists – mainly from the UK, Germany and the US – reported how they had received abusive or threatening emails and messages, including threats to kill them or relatives voiced via email, phone call and social media, and (somebody???) had published their home addresses. Six of the 321 scientists who responded to the magazine's survey said they had been the victims of a physical attack. However, the magazine's much larger sample found that a higher proportion of scientists were affected by abuse, hostility, verbal aggression, or threats. More than two out of five (aprx. 40%=aprx.128 out) of the 321 respondents stated that they had experienced emotional or psychological stress as a result...". Remember this.

The threat goes both ways...but the mass media defends the right only of those individuals that are pro "Corona Politic ". Those that speak against Corona Politic seems to get the worst treatment (de-platformed, demonetized, loss of jobs/founds and they are even demonized, character assassination). We can see who gets the money... and who does not. We can see who defends the interest of "Big Pharma", gets lots of money. Its visible. It's this the scientific way? Democracy??? Tyranny??? What do you think??? Tell me about it.

Please contact me. Until next time, with respect, Robert Freemann
