

Life is a gift

Sure, life is not clean...it is complicated. It is dirty and painful, sometimes...but you must do your best to make it simple and clean as an intelligent human being... life can be fulfilling and beautiful if you live in love/sympathy with yourself, with your family in a natural community... in Nature/God with God/Nature. In the stream of light/ life in the Infinite/Univers- Cosmos.

Life is a gift... life is a Divine Miracle... accept this as a fact... it is The Ultimate Reality... the biggest miracle of all...

With respect, Robert Freemann
