

Who lies and who tells the truth?

Maybe you shall ask yourself at this point in time a few questions about the “Corona”, Covid 19 virus and test, and the MRNA vaccines (it is a new technology that in reality is not a vaccine, it is actually a technology that modifies the human cells, which means genetical modifications of the human body) that they are trying to force on the entire human world population (the success rate for the Governments/Big Pharma/Corporations/Billionaires of vaccination/human genetical modification in different country's is between 20% to 80%plus, by their statistics). This is the real situation now. But if you're vaccinated (or not vaccinated), then some of the most important questions for you /for me/for everybody/for all of us, are those:

If you have done the vaccine, can your doctor's, politicians and Big Pharma (for example; BioNTech USA, Pfizer Germany, Moderna, Johnson & Johnson, etc.) restore the genetical modification that the MRNA “vaccine” has done on your genes/cells of your body?

If we find through studies/trials (1-2 years, 3-5 years,5-10 years or more) that those genetical modifications have serious negative effects on human immune system, fertility, mind and/or the human body and health, longevity, etc. Who is responsible? And is this process reversible or not? I don't think it's reversible...!?

Are we now Guinea pigs? We are now experimenting with people's lives?

What happened with our human fundamental rights that are guaranteed in National and European Union laws? What happened with the National Constitution of most of the countries of the world? What kind of politicians /specialists do we have? And who do they really represent? The rich / Corporations? Us, the people? Or their own pocket's, their own money interest/gain/profit? What do you think?

Why are the negative opinions/views of some of the most important medical doctors and scientists from all over the world ignored and not exposed in the German media? Why are these opinions suppressed/repressed from the official news channels? Why are those information's suppressed /repressed even on Facebook/META, YouTube, Instagram, etc.? Where is the debate? Where is the informed opinion, consent? What is really happening? What do you think?

Why can't we see the contracts between Big Pharma and our German Government? Why can't we see the contracts between Big Pharma and our European Union Government/Parliament? Why we cannot see the contracts publicly, transparently in an honest way? Considering that we are talking everywhere, in all countries/nations /states

about public money or medical insurance money. The money of working citizens. Why has in no country ever those contracts been made available to the public in a normal way? In other words, we, the tax payers, that pay the money that make the politicians and Big Pharma people rich. Yes, that is the truth, our money makes all of them rich. Not vice versa... We do have the right and obligation to pay... but we do not have the right to see the contracts. It is this normal? What do you think?

Why we are not allowed to know, to see the truth, the actual contracts? What they are hiding, about the effects of the "vaccines" and of the financial/political manipulations? If everything is so good, why do they need to force us to vaccinate with the "voluntary vaccine"? The entire world population?

Who got the money? How much money? Which politicians have made the decision on public money from our taxes? And why have they passed "quasi laws" that are not respecting the constitutional rights of the citizens/people?

Who are they to tell us when and what to inject in our bodies? Why do they now want to vaccinate/inject the children? The children...? What is the real motivation behind all of those forceful/powerful actions (illegal actions) to make us to submit to their will? Where are the democratic principles and laws?

Why is there no investigation on all of those questions? Who is responsible for all of these things that happen? Why are they allowed to continue to build a police political state? Mind police? Politically correct police? Who gives them those rights?

They should also be asked if they are aware of the CRIMINALS AGAINST HUMANITY LAWS? We want to know the names of the politicians, their positions on the decision-making process of the public spending by the right of law. If the law exists anymore??? And we want to know for sure that they are not giving advantageous contracts to their own family members and friends that work on the boards of directors of those Big Pharma/Corporations. We want to be sure there are no conflicts of interest (it is illegal to exist a conflict of interest in public spending, that is corruption...). It's also illegal to receive bribes or other unlawful benefits. And we want to know the names of the corporate executives/directors in Big Pharma, companies/ corporations and all the money trail of payments. Follow the money. How much? Who got what? Why so much secrecy? What are they trying to hide?

We want answers, we want the truth. We want everything to come to light. We are all tired of so much darkness/tyranny/suffering.

In the end if you're vaccinated (or not) you shall want and desire to know the truth. Your life and the life of humanity depends on it. You should want and desire to know the truth. There is nothing right and correct in so much secrecy/darkness, in so much pressure by a few individuals (even if they do have power and money, and consider themselves to be the elite/gods of humanity) to inject people with new, unproved technology... that actually modifies people genetically (just like farm pigs and cows), etc. Who is responsible for this? In the near future, if they like it or not, they will have to pay, and they will pay. All the responsible people will pay, because payment and retribution will come. If these "elite /gods" bleed like us and feel pain like us ...it means that they can also suffer just like we do and die just like we do. If they think that they are immortals and beyond the reach of THE LAW OF RETRIBUTION/RECIPROCAL...and human touch, they are going to have a big surprise, when they will meet with reality, THE LAW OF NATURE.

What happened with democracy? What happened with people's rights in France, Italy, Spain, Holland, Australia, Canada, Switzerland, Austria, Belgium, USA, Romania, Poland, Hungary, etc. and the rest of the world? And what happened with democracy and with the people rights, right here in Germany?

Wich part of all this you do not see?

Wich part of all of this you do not understand?

What do you want to do? Are you going to do something about it, or not???

Naive? What does it mean to be naive? Please do not be naive. Please realize that money and power makes/creates monsters. Money and power corrupts totally if there is no power to oppose it. The people must push back against those that are corrupted. And insist insistently, that through the law, punishment must be dealt to all the corrupted ones... to all the traitors (betrayers). Nobody should be above the common-sense law/democracy/the basic human rights law.

The traitors (betrayers) should pay. Must pay. Never forget and please remember this forever.

To be or not to be? It is a question that we all have to answer all the time, every day.

To tell you the truth if they wanted to inject me with a "vaccine" that contained just clean water, as long as they want to do it by "force", by mandatory vaccination, I do not want it. I don't believe them anymore, that they want to "help" us. I believe that we must investigate everything and don't trust the official story anymore. Investigate. Investigate. And investigate is my sincere advice to you.

Please share this message and if possible, ask all authorities/politicians/journalists to investigate everything in this matter. Please if possible contact your political representatives in writing and ask them your honest questions and your honest opinions and desires. Do not forget that they are getting paid from the money that you pay in taxes and they actually should work for you not for Big Pharma or for the big billionaires of the world. Please become active and try to help.

Sorry, I almost forgot to ask the most important questions for you.

1) Are you vaccinated?

2) If the answer is yes, why did you decide to vaccinate yourself?

3) Did you vaccinate yourself because you believe in the vaccine? Or because you were told that if you will not vaccinate yourself with “the voluntary vaccine” you will not be able to go to work anymore (under the threat of no money, under the threat of hunger)? Or because you have been told that you will not be able to live a normal life (go to the store to buy food and other necessities, or go to the gym, or go to the restaurant/bar/barber, or to go on vacation, get on a plane, travel/transport with the public transport, or go to a wedding/name christening/ funeral or a birthday party, etc.)??? For which of those reasons have you vaccinated yourself??? For freedom of movement? For your normal rights to live a normal life...???

4) If you have vaccinated yourself, under the duress/threat/fear and/or blackmail that has been imposed on you, don't you think that you should demand retribution/punishment/justice for this wrong doing against yourself? Where was the respect for your dignity/informed consent that you should have as a human being???

5) How far are you willing to give up your rights and those rights of your family (father/mother, wife/husband, children, brothers/sisters, etc.) and of your fellow men and women???

6) I am sorry for this final question that I have to ask you. If you have vaccinated yourself with the “voluntary vaccine” how do you feel? What do you think?

Variant A: is that you want to help them to vaccinate everybody, men, women, and children with the “voluntary/involuntary vaccine”???

Or variant B: is that you want to help those 30%-40% that do not want to get vaccinated themselves (by their own choice) to remain unvaccinated, free of the vaccine???

So, as you can see, vaccinated or not, we all have two choices. For or against mandatory vaccination. For tyranny or democracy...

Maybe it is not good to put all the eggs into one basket. Maybe this way more of us/or some of us will survive. What do you think? Do you understand?

Remember this, if they can treat all of us like animals, there is no more stopping them... DARKNESS WILL COME. Can we still believe in something good? Can we still believe in the power of truth/light? Do you believe that us European people will live, or die? What percent of the population do you think will survive "THE GREAT RESET"???

Do you think we will ever come back to a normal (normal life) or to just, like Mr. Klaus Schwab is saying to us/telling us: "we cannot go back to the old normal"???

By the way, I want you to know that all those questions that I asked you, with respect, I have asked of myself also and I have my answers. I have asked you these painful questions with hope in my heart that you will also find your answers...

I am against the mandatory vaccination with the MRNA vaccine (genetical modification of the human body).

I am for true democracy, for true European values and for normal family values.

I am for free choice and responsibility. I am 100% for a full investigation on all parties involved in this Big Pharma business (politicians, medical biocrats, news media, the billionaires/corporations of the world,etc.). I am 100% for justice and punishment of all the individuals that will be found involved in this big money/big power corruption (illegal activities / sabotage of the democratic political system) and abuse against the world human population beginning from the unelected billionaires, unelected UNITED NATION-WORLD HEALTH ORGANIZATION on down to the Big Pharma, and the elected politicians/officials/medical biocrats,etc.I believe 100% that if you are vaccinated or if you're not vaccinated, we are facing the same opponent (corruption/darkness).So I believe 100% that we shall unite for our common goals. Not fight each other. This is it. May God help us all !!!
