

Identifying Satana & Sataina

That which you call by the name Satana can work against mankind in a few ways:

- 1) Through ignorance, the absence of knowledge, the absence of light, in darkness and confusion...pain/trauma...animalism, etc.
- 2) Willingly, connivingly, through intelligence, in order that the "false self" in man may exploit others in a parasitic/predatory materialistic way. To fulfil the desire for food, sex, money and power, domination, self-affirmation, superego, etc.

For this goal different individuals will do anything to themselves and to other people and to the environment/the planet including all the other living things on the planet, (vegetation, trees, animals, rivers, mountains, etc.). At the highest/lowest level, when they embrace the power of darkness, they begin to hate almost all things... they actually commit slow suicide on themselves. But this is not all, they become sadomasochistic and in a perverse way they desire for everybody and everything to suffer... to self-deny... to annihilate themselves...(nihilism). They actually promote death on a small/large scale on knowing/unknowing people and animals... Sometimes they play the role of the saint and of the Martyr... and direct people directly towards nihilism... non-existence. Sometimes the mask that they wear is almost perfect in their self-rightness. They have a few things that if a person observes with attention, (you) can actually feel, maybe even see, that something is not right. So, remember that, they are the best of the best in mimicry/acting to seem to be persons of high moral standards, person of respectable societal standards, community leaders, business people, famous people, religious leaders, political leaders, etc. They will lie without shame...directly in your face type of lies/deceit..." Everything for the show", or "the show must go on"...type.

Do you understand???

The smarter they are, in creating the perfect mask, the more dangerous they are. Sometimes they even have something attractive, something seductive, a certain type of magnetism, they have what is called charisma... all of those "qualities" for them are only weapons/poison just like the spider has "the web" and "the poison", (tooth and claw) ...

I will now share with you some of the real signs of this kind of evil, corrupt people.

-Everything they do is for profit and the profit is never enough for them.

-Everything they do is for their own ego, even when they do something nice... they expect much more in return.

-They are very manipulative, opportunistic, they like to lie/deceive in order that they may obtain their way, their own advantage.

-They like to steal the work of others and always try to claim all the credit.

-They always consider that for a reason or another they should come first.

-They avoid manual work at all cost (most of the time, not always) and for as many reasons/motives as possible.

-They always feel superior to others without taking any IQ test. Without entering in an honest objective competition with other people to see if they truly are, or are not superior. For them lying/deception = intelligence. They always find excuses for their failures and blame somebody else most of the time.

-They avoid direct competitions and prefer to go by nepotism, bending over, ass-kissing the boss, etc.

-They do not have true character to say no, when somebody buys them, or to go against the flow... If it is obvious that the flow is bad/incorrect.

-They are not generous... If they commit an act of charity, they always have something they want, a hidden scope/purpose that they desire... even if you don't see it... As enough time passes... if you will be careful, sooner or later, you will see it. Even if it is too late...for you...or for others. Watch and be careful.

-Those people normally don't like children, and/or animals in a general way, unless they have some kind of direct pleasure (payback) from that relation- exchange in their eyes.

-Many times, they do not have a wife and children or do not make the effort to keep it.

-Many times, they do not have a normal sexual life, but an aberrant one... or no sex life at all. Celibacy, homosexuality, bisexuality, transsexuality, promiscuity, abstinence, etc.

This point creates frustration and guilt... sometimes even the desire to punish/take revenge against children and people (and on animals) in much perfidy, perversity, abuse, sadomasochism, in many different ways... through oppressive laws, religion and sexual abuse, torturing and killing. Sometimes they even inflict self-injuries on their own self...So don't expect pity from them...they are not capable to feel it, not even for themselves

sometimes...Repressed/oppressed sexual energy is very powerful; see for example "homosexuality and serial killers" and torture, sadomasochism, including cannibalism and human/child sacrifice...

Now, I want to share with you a secret...time has no more patience with us... look around yourself and do your best to identify the Satanas in your own life, job, community and so on, because relatively soon now something is going to happen...that will give you the opportunity to do your part in overcoming those evil people, Satanas...So watch carefully everything around you and take notes...and begin, if possible, to minimize/diminish their power everywhere in any way possible...Beginning now...In the meantime hope for the best but prepare yourself and family for the worst scenarios that you can imagine...study and train yourself, family and friends and if possible, more people in your community. Create for yourself emergency supplies and ally's...It looks like we have a big storm ahead of us...in the very near future. Prepare yourself. What do you think? Tell me...

Until next time, with respect Robert Freemann
