

21st Day of War

SOS to the Russian people. You the Russian people must understand that you are a conglomerate composed by many tribes. You must understand that your foundation as a civilization is an Ancient European Culture that is based on the normal working community where every single extended individual and/or family was respected, or not respected in the community based on their own merit and deeds, as well as the good reputation of their own family. It was traditional for every man to build a family and a house and to make and grow children in a normal traditional family (the foundation of the next generation, our future)... as well as for the parents (Father and Mother together) to help their own children to build the new generation family and house. They existed only as part of an extended family, in a united community. Your grandfathers and grandmothers (by the Ancient Law and by being Christians) didn't believe in slaves or empires.

This is also true for the Ukrainian people and for most normal European people that have the Ancient European blood in their veins. All the individuals among you that desire slaves or to steal other people lands, houses and/or their lives (as in slaves, sex slaves, etc.) represents the foreign blood (a corruption/ a virus) and/or teachings/ religion/philosophy/ideas that have invaded or infiltrated your people in your historical past and in communism/USSR.

You are, as a majority, European Christian people that believe in working and producing for your own necessities/needs... not in parasitism and depredation of other human beings... your neighbors... or other people. You have been used/ tricked by many bad/ evil people, in your historical past, as well as in the present (just like all of us)... You have been exploited without pity by them (the ruling class) and have been taught by them to persecute and exploit/ invade your neighbors by being told/ taught a false doctrine, of false philosophy, false religion, false science, or false moral superiority or superiority in numbers, etc. You have been taught everything by propaganda in order to support and to accept the corrupted system as well as the Imperial Dreams of the "foreign royalty" that has exploited you for hundreds of years. So, as you can see the "evil system" is powerful in the West, as well as in the East... Think about that... The rich leaders of The West will fight with the rich leaders of The East until all Russians and Ukrainians (if possible all Europeans) are all dispersed/ dead and/ or replaced by other people. By displaced/ dispossessed immigrants from other foreign lands/ countries, workers, slaves from other parts of the world that can be more easily manipulated and used... To first destroy the Christian European Autochtone Culture/ Civilization, etc. and then to replaced the European people with people that have no historical roots (history

and traditions/ culture), ancestors in the area/ land of Europe. Rootless, dependent, poor people is what they desire in order to create the perfect zombies/ slaves. Understand that people that are not bounded by love and traditions/ history to their own land and culture/ ancestors are people that are much easier to control and manipulate. Look on a map and see from where they are bringing people and with what type of religion/ believes are trying to replace us with... and yet Putin has send you (the Russian soldiers and some Islamic) soldiers to kill European Christian Ukrainians (entire families) and next he wants to send you to Moldavia, Romania, Hungary, Czechia, Slovakia, Poland, Lithuania, Latvia, Estonia, Finland, Swedish, Germany, France, America/ USA, etc. The man is crazy... He hates and desires to kill and to destroy all of those Christian European People... Why??? Don't you see that between what he claims/ said and what he does/ do is a big contradiction? He forgets to tell you that most Russian people will suffer, die and be destroyed to, in such stupid process of actions... What kind of person will desire to kill so many Christian European People (men, women and children) all over Europe? He talks and bring Chechens (Chechenia/Cecenia)/ Islamics and (in the future? Syrians? Islamists?) to fight against our European Christians brothers and sisters here on our European Ancestral lands. What kind of person wants to destroy all of Europe? An entire continent??? In order to try to build some kind of stupid empire? He also ask for help from the Chinese, Iranians, etc. against the European people and threatens the world with a nuclear war. Why? What is the true end game that he desires? Mr. Putin is no true Christian, he most definitely has other dark secret desires and plans in his head that are meant to bring to us only death and suffering... Think about that... But as we can see Mr. Putin does not have any pro-Christian plans... Or pro-European plans for our people (only nice sounding false empty words?)... He tries to use nationalism and patriotism in a highly negative way in order to bring only destruction, despair and death all around... Lets not forget also the Corona Politics situation, which right now is totally overshadowed by the Russian-Ukraine Big War and the anti-democratic politics and plans, as well as the Big Economic crises created everywhere. In Mytico-Religious language this is truly the work of Satan (and his minions) against mankind... against you and me... against all of the entire world Human population... Beginning with the Europeans and their descendants everywhere... including Western Europe and America (USA, Canada, Australia, etc). We have some sick leaders (psychopaths) hidden among our own so called leaders... The shadow of death is spreading everywhere... Open your eyes...

In order for you to understand easier, think of Hitler, the way he manipulated and controlled the German people, by telling them (by propaganda and by force/terror) that they are the most superior among humans and that all the other people are inferior

(sub-humans) to them... in order to teach and force them to do inhuman acts against other normal human beings... against normal families... against normal working people, etc. The German people were also victims to the same system that was teaching them that they are some kind of superman... they were not just victimizers of men, women and children... But they were also victims, at the same time, of the same system. Just like you/ us... Just like all of us, now, under the Modern State Tyranny... Centralization of Power creates monsters with Human Aspect... Dressed well (well fed) and well spoken too... True Monsters... in human form. Total power corrupts totally...in not too much time... Understand?

So, don't allow people like Hitler, Stalin, Mao, or Genghis Khan to teach you under no pretext or dogma to lose your humanity. Fight for Democracy and human rights... If possible fight for a United Europe and for European Christian Human Family Values (culture) and for Basic Individual/ Family Rights and Freedoms.

Remember the war between the West and the East (Americanism versus Pan-Germanism versus Pan- Slavism or versus Pan- Latinism) is just a game that "our present leaders/masters"... that go to the same schools/ foreign religions, strange believes and concepts... have many things in common... they do belong to the same men clubs... They all go trough the same education/ political organizations, NGO's... They also seem to have a common strategy to diminish and keep us down, the people under their control, terror and under their tyranny in a corrupt political system. Don't you see? That everything is a show? Don't you see that those people are all a big happy sick family? Don't you see?

Remember, those "leaders" need one another a lot... in order to put us, the people, to exterminate each other, by fighting Christian against Christian... instead of fighting them for Human Rights, European/Christian Rights, family rights, etc.

ATTENTION! So, for the Russian people I have one strong powerful messages; Stop the War in Ukraine by any means necessary and fight for your rights in Russia in order to join your Christian European brothers/ people in peace and Human Dignity/ Rights with common working normal family values. United and in Peace... The foundation of our unity shall be Christian Values and/ or Humanitarian Democratic Values... if we want to survive (???).

SOS Ukraine. SOS to the World.
SOS to the Ukrainian people.

You must now (in 2022) fight your defensive war to the end for your freedom/ independence in a reciprocal manner against Putin's Russia without ever giving up. What they have done to you, you have to do to them. Don't ever let them go to sleep normally... not even one night... without fear, in your own land of Ukraine. Don't ever let the invader sleep... Do you understand? Don't ever allow them to sleep (rest) if you want to reach/ have VICTORY... So be it... You are not guilty that the Russian Imperial Court / Aspirations of corruption and grandeur (Catherine II) tried to Russify Ukraine in the 1700's by betrayal and by force. You are not guilty that the Russian Imperial Court back stabbed the military-democratic European Christian Cossack Hetmanate which was largely formed by the Ancient Autochtone descendants of the Early Europeans based on the Law of the Land in order to defend the land... The Cossacks were not Tatar or Mongols... No, they were the Autochtone population of the North Black Sea (Ancients Cultures). This Ancients Autochtone Population by the Old Laws of the Land formed many times in coalition/ confederations of many tribes in order to fight the invaders/ enemies (like the Mongols, etc.). If one study carefully the tribal history of Romania (Dacia, Thracia, Getae, Carpi), Bulgaria, Ukraine (Cimmeria, Scyto-Thracy) and Russia they will find the truth. That the Autochtone populations of Dacia, Thracia, Ukraine, (Scythian-Scy-Thracians), Ruthenians, etc. are the foundation of all the countries around Carpathian Mountains (in all directions) and North of the Black Sea People plus people from the North, from the East, from the South (South of the Black Sea to), but mostly also from The West. It was not Russia that founded the Russian people. It was the Ancient People of Charpato -Danube-Black Sea- Niester people that founded Russia as a people and as an Empire, from the Carpathian Mountains all the way to the Pacific. Not the Russian Empire or (USSR) has founded Kiev. Kiev (Kievan Russ) has founded Russia. And Kiev is founded by the Charpatic – Black Sea People, etc. This is just a short story... keep this in mind as you read... Just an outline of history... The important thoughts to remember is that Ukraine has always tried to be free and independent from oppression...

Catherine II (born Sophie of Anhalt- Zerbst, 2nd May 1729 to 17th November 1796) which was born in Pomerania, Kingdom of Prussia, which at that time was a German Kingdom (from 1701 to 1918) by being Imperially Germanic educated(?) brought to the Imperial Court of Russia same Pan-Germanism (phylosophies, etc.) which in the Russian Imperial Court become Pan-Russianism (a form of Pan-Slavism).

So, by the betrayal of the Russian Imperial Court of the Cossack Confederation Hetmanate... begin in force trough corrupted history and by the use of Corrupted Laws passed in Moscow the forced Russification/ Slavicization of Ukraine (a big secret... most people that did live on that land for thousands of years in Ukraine were not Slavic at

that historical time... they were a coalition of people... Romano-Latino-Slavic). So the forced slavification/russification begun/started at that time in force against all the people that were living at that time in what is today most of Ukraine by treason and persecutions... also the Belarusian people were Russified by force at about the same time, etc.

Later, the liar code named, STALIN (the MAN of Steel) a real killer and criminal, thug and bank robber (by the real name of Iosif/Joseph Vissarionovich Dzhugashvili from Georgia)... a “communist” human monster... became the supreme leader of the lying communist political party of USSR which through lies and aggressive propaganda covered up and further distorted the history of the people of Ukraine (and all the other states/ nations around them)... Stalin (just like Putin now) also tried to exterminate the people of Ukraine (Moldavia and Romania) in many ways... including through HOLODOMOR (death by hunger), forced deportations, political prisons/ gulags and an immense number of people tortured and through executions... Plus of course (by WAR) all the victims in Russia and all the other lands under Russian Communist Control... probably the biggest holocaust in human history (or the Mongols??? or Hitler? Or Mao?). Because of strong Pan- Germanism we have today strong Pan-Slavism/Russism... beginning little by little from the 10th-14th-15th centuries on. We do have from The Balkanic Mountains (Adriatic Sea) to the Caucasus Mountains on the North of the Black Sea and up to the Baltics the beginning... The original home land of the Charpato- Baltic- Slavic – Germanic – Latin Languages. More than this from the Ancestor of Latin Languages all the Slavic, Baltic, Germanic languages were born. Plus a long, long time ago the Semitic and Iranic/ Aryan Languages too... that are today in the Middle East and much further... So, if you are born on Ukraine from the people that have lived there for centuries or millennia you must fight and defend your independence and democracy. USSR (Russia) by Stalin has already tried to exterminate the Autochtone population in Ukraine by betraying the normal people of the land, by war, civil war, holodomor, prison, deportation and by bringing Russian People (Colonization by force) on top of the Autochtone population. He did the same to Moldavia (Romanian People), which are some of the most ancient people of the lands on this parts of the world by blood/ DNA from the Old Ancient European Civilization, etc.

So, yes, you must fight the war for your independence for your survival... all of Europe is with you and in a way or an other must also contribute/ fight and help you in your time of need... But you must not forget that for the last 700 years or more Pan-Germanism and Pan- Slavism have created more than 100,000,000 of human victims, of deaths (real dead people)... great destruction and have always destroyed our European

people standard of living and cohesion(?)... Unity and Culture. For Example... What you (and your forefathers) have build now (from 1945 to now, aprx. 77years) is being destroyed now by Putin Russia in the name of Imperial Power (Power Projection) by war... which in reality is a struggle / war (by proxy) between Washington, London, Paris, Rome, Berlin, Jerusalem and Moscow, plus some other groups interests of current financial world politics.

In conclusion. If you are Ukrainian, or a volunteer that is helping the Ukrainian people to fight and defend themselves, their family, their community, their country and their culture, tradition and forefathers religion, (Orthodox Christian Democratic Humanism) keep on doing it. May God help you in order to try to survive, be free and happy... in unity with all the European People.

If you are Russian, do your best to stop the Putin Russian War of Aggression against your Christian Brothers. Try to understand that you do have plenty of land and resources. Try to understand that Pan-Germanism, Imperialism, Capitalism, Communism, etc. Including Pan-Slavism, Pan-Russism are all part of the dogma/ psychological strategy/ war used against the Europeans (and Americans) in order to start civil wars, destructive wars and/ or national wars of great/mass destruction in Europa, etc. Please understand that in the new international power politics we are the "new American Indians" right here in Europe... we are on the extermination list in the new international agenda of world politics. They do give us many reasons to kill and exploit each other... Don't they? Please be very careful and don't forget the forced vaccination corrupted politics/ war, Corona Politics (what is the true political scope, motivation for it?). Don't forget all the human rights/ Christian rights assaults/ violations done by the Modern States everywhere. The assault/ war on normal working family rights. The war on our economies and all the other ugly/ corrupt things that are done against the people everywhere, etc., world wide. Don't forget anything. Keep all of those things in your mind. Wake up!

We the Christian Europeans and our descendants everywhere (America, Canada, Australia, New Zealand, etc) are influenced the most by everything that the so called "novus ordo seclorum" aka; the New Secular World Order (without God) wants to do to us. So the principal question will be considering all the problems/ challenges that we are facing globally (look on the map) and in each one of our countries: What shall we do in order to survive, be free and happy? Us, the Christian European People? When you look around yourself things seem to be almost without help... But I want for you and me to do a small mental exercise in visualization and hypothetical situation, a make believe scenario... Lets imagine the Basque territory in the Pyrenees Mountains/ hills

with its Basque people and create an imaginary scenario. Let's imagine that the Basque people are independent and have their own country... not under the authority of Spain and/ or France with their big bureaucracy and central governments... Let's imagine that those people were left alone to live a traditional life and to adopt technology on a voluntary basis, the way that they want, in order to do their work and to provide for themselves what they need without any "bigger outside power" (nation, central or federal power) to come and wage war on them. What do you think will happen to them? Do you think that they will be able to take care of all of their needs and to prosper in time by working for themselves in their own tradition and culture? Or do you think that they will need to be interdependent, or they will need help by the Big International Banks Financial Institutions, or the UN, or the EU? Let me tell you what I can tell you of what I think about this hypothetical situation after I have studied, worked and trained most of my life in Europe (a few countries), America (a few states), China (a few states) and after I met people from most cultures on the planet by living in city's (industrial, economic social centers, etc.) and in an agricultural-agronomic (few) environments/ areas/ communities many years (more than a decade) as well as visiting many aggro-communities in a few countries. I can tell you this... They will need nothing from nobody and if they did want something through trade from some other place/ country, than they will have absolutely no problem in paying with goods/ value the goods/ value that they want to buy or exchange. What do you think about this scenario? Do you see it in your mind eyes? I can also tell you that they will not have to much criminality/ alienation and/ or psychological problems in their own communities. Most people will live a very nice normal working family life. Everybody will be needed and appreciated in the community. And they will have plenty of time to go to all the family and friends events/ gatherings too... to dance, drink and eat, at births, deaths, birth day parties, grills, etc. With those things in your mind the next question is this: How much of what is built as Modern State Institutions are truly necessary? And how much of it is parasitic and predatory? Who do you think is promoting internationalism and interdependence of industries and economies, (Control, Control, Control), Financial Control, Mass surveillance, trans-humanism, electronic chipping, digital identities, biological/ genetically experiments-modifications, control and tyranny, biological/ chemical threats, etc. Who benefits if one big country has some economic disaster? Why do you think that they desire for everything to be interrelated/ interdependent? Because they desire for all of us to suffer together if we do not want to submit to their stupid demands. Who are they? You are going to ask. "They" are the ones that desires Centralization, Monopoly, Control and Tyranny. "They" are the ones that no amount of money and wealth is ever enough for them. "They" are the ones that have no conscience so they are trying to overcompensate for their own human inferiority/ sickness by overachieving money and social power beyond any healthy normal desire.

“They” are the ones that are destroying nations and peoples as well as poison all the land and animals, etc. “They” are the ones that want to control all of the natural resources on Earth like oil, diamonds, gold, and on and on, everything. When and if we look just a little bit back in time, the normal situation, up to maybe 150 years ago was that all countries of Europe were almost totally (90% plus) industrially and economically independent of one another. It has always been the desire of a “few people” for Centralization and Monopoly (Empire) that have pushed to mix people up in multiculturalism, etc. all the time and the needs to create confusion and conflict of interest among multiple people at the same time... as well as human conflicts (civil war, revolutions and/ or war among nations states, etc.). In this confusion/ conflict they camouflage themselves better and work better without being seen and understood by most people. That's why most people don't see the real picture.

The present war of aggression of Russia against Ukraine, exactly in the Corona Pandemics/ Politics is just a confirmation of how good the world international leaders (international communism or international capitalism is the syntheses of both systems and does the same thing; destroys and exploits the normal people) co-operate in destroying nations and the normal working/ fighting families/ populations of European People (and American People)... Including all the other people on the planet...

21 days of war, terror and great inhumane human tragedy... What more can I say? If you are Ukrainian I wish you all the good in the world (VICTORY) and want to tell you that watching and understanding your situation and fight have profoundly moved me in awe and respect for your humane mobilizations against the Russian Army... You the Ukrainian fighters will be remembered for this war/fight in all human history...The same as the Spartans... President Zelensky replied: “I don't need a ride, I need more arms/ ammunition” will also remain in World History forever, in order to show that a comedian/actor have become a great national leader by personal bravery and dedication... and an international inspiration World Wide... If you are Russian, stop the war and help in changing things for the better in Russia... If you are from Europe or America help Ukrainians and remember that we (all Europeans) are right now in the greatest danger of all of our existence... Rise yourself and take control of your own governments democratically by activism and personal representation... Fight for representation of normal individual and for normal working family rights... Rise a European army, navy and air/ space force in each nation. 75-80% for the national defense and 20-25% for a rapid reaction/ deployment European Defense Force or something on that line. We need a rapid deployment European Military Force ASAP (land, navy and air/ space). We need a 100% United Europe now.

If you are American, Canadian, Australian, etc., try your best to come back in the Great European Family were is your place and cultural roots. Remember this, if you fall we are weaker and more vulnerable. If we, God forbid, fall (all of Europe) we are done for it. Don't fool yourself. We, us and you, must all wake up and understand that we are under a coordinated attack from all directions... from within our own nations and from outside of our nations... Do your best to help Ukraine... but also the bad overall situation that exists in the world at this time. Don't forget nothing. Study your enemies. Study your friends too. Watch and study everything... And represent your interests...

Attention! For everybody... The possibility of a nuclear war?... Listen I will tell you this: don't fear what you can not change... But do fear your own cowardliness and inaction/ inactivity towards the things that you can and shall do your best to change... Fear your own apathy and your own corruption because that will kill you more dead than the atomic bomb. I know that, because I have survived in some places that some people didn't survive... All Life is the greatest gift in this existence... I know that we all die at least one time, at the minimum anyway, in this life (sometime even two or three times... So, why fear the unavoidable? I think it is more important how I live my life and when I do die, to die preferably either fighting for what I believe in this life or quickly by natural death surrounded by my family and friends. If it happens by accident, nuclear war, civil war, etc. it does not matter. It will not happen by the stupid vaccine... I believe. Abort the stupid vaccination campaign against the will of the people, if you do not want to be persecuted for crimes against humanity... But up to that moment when I die, I must be true to my own believes, in order to be able to live with my own self. And to be able to watch my self in the mirror everyday when I wake up. How about you... How do you want to live your life? How do you want to die?

Listen if you did have the patience and perseverance to read my letters to humanity, please also read this imaginary short story for our conclusion. Imagine that I am a sheep herder and I have many sheep and many dogs for protection of my sheep/ flocks. Among my dogs I have a strong one that is smart and brave... a good dog that works over time, etc... One of my favorites... I feed and love him more then most of my dogs... But one morning about 05:00 hours, I wake up to a big noise of my sheep screaming in agony and when I run outside I find the strong guard dog attacking my sheep's one after an other one... looking at the slaughter... I realize that my dog has now got sick somehow and has been infected by the rabies virus... Basically he has become a rabid dog... a crazy dog beyond healing. What shall I do in this situation? He is killing my sheep (the old and the young, even the babies) and he is not stopping because the poor/ unfortunate dog has lost his freaking mind... But I love him... What can I do? I have no choice but to command to one of my sheep herders/ worker to put him to

sleep as soon as possible. Do you see my dilemma? I, the sheep herder, that love that dog, must command one of my workers to kill him for the better good. So, “kill the dog”... put him to sleep... So be it... then bury him in the proper way.

This is a sad story, but I hope that you learn something from it... What is the moral of the story? You tell me.

ATTENTION! In conclusion I strongly and powerfully suggest that all European people stop thinking in a selfish, cynic, way and begin with the greatest speed possible to totally and without reserves embrace Ukraine in the bosom of European Union and in All Live, in the spirit of Ancestral European People... Now... not after they all die fighting for human freedom (independence) and rights over there, for democracy. We must all act now... All the European Governments must act now. So be it. I hope all European Citizens contact their own Governments and Keep on helping, more and more, until Ukraine becomes once again free and democratic. Germany... Germany (and Americans) please don't play on two fronts... please don't help Russia (by the back way) in any way, shape or form towards their war effort... because it is not in the interest of a United Europe. Understand that our future survival, of all Europeans (here and across the ocean) depends in Uniting Together now. We need each other... all the Western Europeans in unity with all the Eastern Europeans, otherwise we are going to have a bleak future, like a nightmare... Just look on the map and see with your mind eyes our real situation. And also look what happen to your children and country in the last few decades. And look at what they desire to do to us... Forced this... Forced that... and so on. You the working people must act in your own family interest in “communion” with all the other working people from all the other countries of Europe and America. United Europe! So be it. Good luck to you... and may God bless all the good people.

Until next time, with respect Robert Freemann.
