

From free man to slave of the Modern Society

How do you take a man or a woman that is grounded in Reality/ Nature/ God and in three (3) generations you make his/her children's children become slaves disconnected from evolutionary natural reality? Three (3) generations are about 75 years of time.

So, it takes about three generations to educate/ reeducate/ condition a population of strong-willed free men and women and turn them into educated, re-educated, conditioned subservient slaves that do not know anymore to live in (or be in) an independent life for themselves.

If people live their life in a rural area, where they are grounded all their life in reality, in nature 100% of the time they will be strong and healthy. But if you move them into the city (factory and/or office) their children will already lose half of the knowledge of reality of nature in about 25-30 years (one generation). Unless they remain grounded in reality by visiting nature, training physically and by spending and studying nature and animals, etc. If they do not do that, by the children of the children time (50-75 years later), 80-90% of that population will need directions to live their own life (like mentally handicapped people)... Instead of making decisions, they will wait and welcome orders and directives on what to do in most of their day to day life. They will almost have no independent life directions or the practical knowledge of producing all the necessary things that their own grandparents knew how to do 75 to 80 years earlier. The men will become women-like (emasculate him) and the women will become more masculine in their behavior. Per total, men and women will become confused about their own life and roles (low energy, low independence, low will-power, etc.) and submissive to their own bosses/masters/ authority figures, the government, etc.

Because of this artificial situation, most of them will have strong feelings of powerlessness, depression and many times they will try to run from their own real life into a bubble of their own making... in virtual reality... or in one reality/ bubble made by others. This bubble or false reality will become their own prison... Prison of the mind. The apathy so strong, that when you want to put them in a prison, or even kill them in a nice, polite way (slowly) they will not even fight you anymore.

They will go to the gas chambers like the Jewish people did in the 2nd world war, without fighting. Many people have asked these very questions... Why? How? Now you have the answer... It has to do with the human conditioning and their own removal from Nature (the true God and way of life) and the creation of false believes, false

human conditioning in lies, false reality (far away from the true God/ Nature) in a totally false/ synthetic/ artificial reality with false limiting believes.

Exactly the same thing has happened, it's happening with the Modern "Advanced"/ enhanced/ conditioned Men/Women of the western European/ North American world now. They have lost their will to survive because they have allowed themselves to be removed artificially too far (by modern education/re-education) from Nature and True Reality in highly artificial (false) reality by the Politically Correct Propaganda Machine in approximately the last 77 years.

From the time when the second World War has ended up until now. By social science/ experiments and social manipulation in the interests of the big corporations... at the expense of human rights and human dignity world wide by the interests of a few...

They have been removed so far from their true way of life/ ideas/ concepts... from their roots (ancestral traditions)... from their own source of infinite power... that they have become so sick in their inner selves and so weak... that they have no more will power to fight in order to exist any longer... Attention! It is a studied, induced sickness. Cost? Billions upon billions of dollars/ euros. Wake up and smell the coffee.

This is the ultimate fall/ decadence that brings decay and transforms the living organisms in to a living corpse... the walking dead... The Zombie Apocalypse... The most affected ones are also (and not by coincidence) the most educated/ artificial ones at the top... but also some of the poor ones at the bottom. The ones that think that they are special because they have adopted the most "extravagant" ideas in the modern philosophy (politically correct ideas) that ignores and contradicts the knowledge that humanity has acquired in tens of thousands of years of existence are affected the most. The most educated are dying/ perishing first (No children? Etc.). The ones at the bottom are more resistant, stronger, sometimes... Be careful. What you saw you shall reap.

If men/women become too conditioned... too domesticated... too beaten down by lies... by oppression... by false reality... By the manipulators/ liars... If He/she becomes too weak, sick and If he/she begins to die... slowly on the inside... Even if a person begins dying from the inside out... of himself or herself, in his or her own body they can still go on to live some more time and function (be exploited), go to work, watch TV/ internet, go home, sleep, etc. (but less and less) until the heart/mind stops working... as a zombie... as a half empty person. Understand?

This was by far and large done by the technology known mostly in the pre-2000s time. I believe that now, in the last 20 to 30 years, they have made advances in mass control/ influence that makes them to be able to almost instantly influence at least a large part of the general military/police/bureaucrats and the civilian population. Then they use that part of the population to force the other part (the part not convinced by their lies) ... In order to force and/or convince the ones that think independently to change their mind/ actions... We have all seen it happen more and more in the past two (2) years. Haven't we? Tyranny or Democracy? This is the fight of our times, if we want to survive...

What do you think? In which side are you? Think about it...and make your choice.

Good luck to you, and until next time, with respect Robert Freemann.
